- The text part welcomes and gives an explanation
- Tha image can be used for a descriptive image

Configuration:

Overview

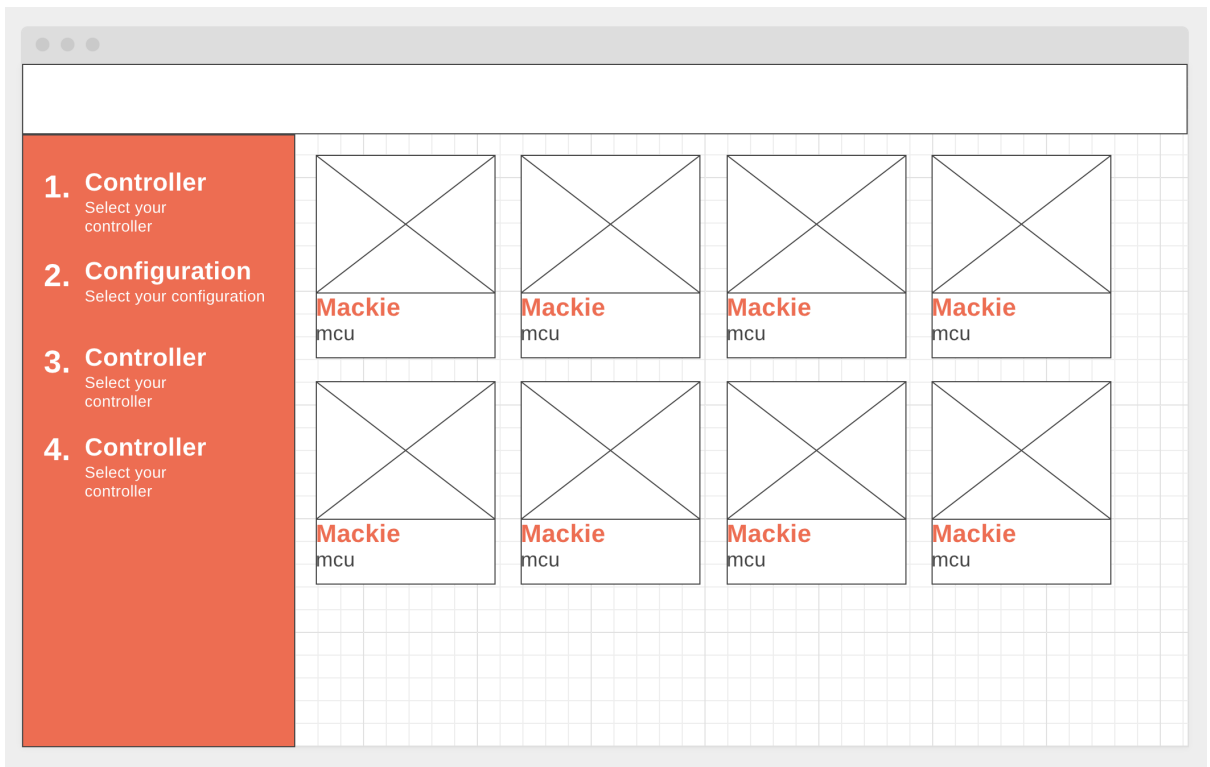

The overall virew could look like:

The steps

1. Step 1: Controllers

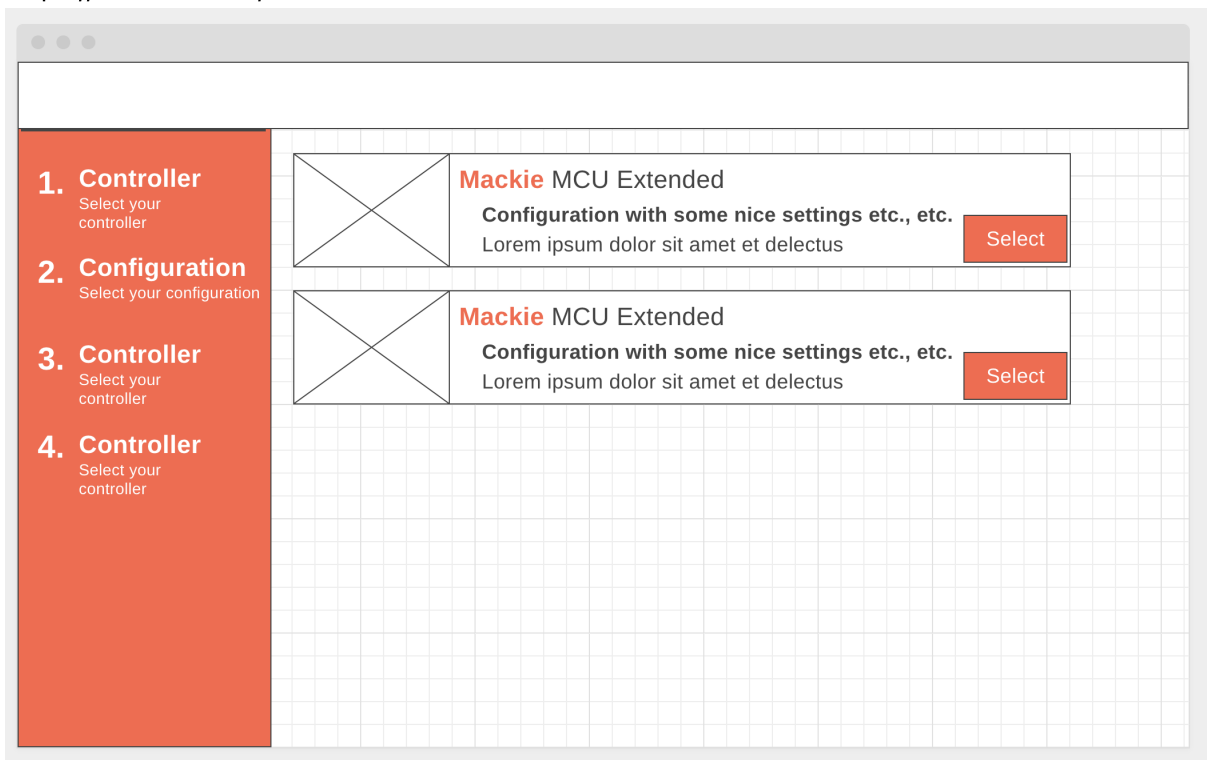

- <https://wireframe.cc/sDI74z>

-
- Display the list with controllers. Clicking one will go to the next step
- Maybe add a button for clicking (more consistent with the next step)

2. Step 2: Configurations

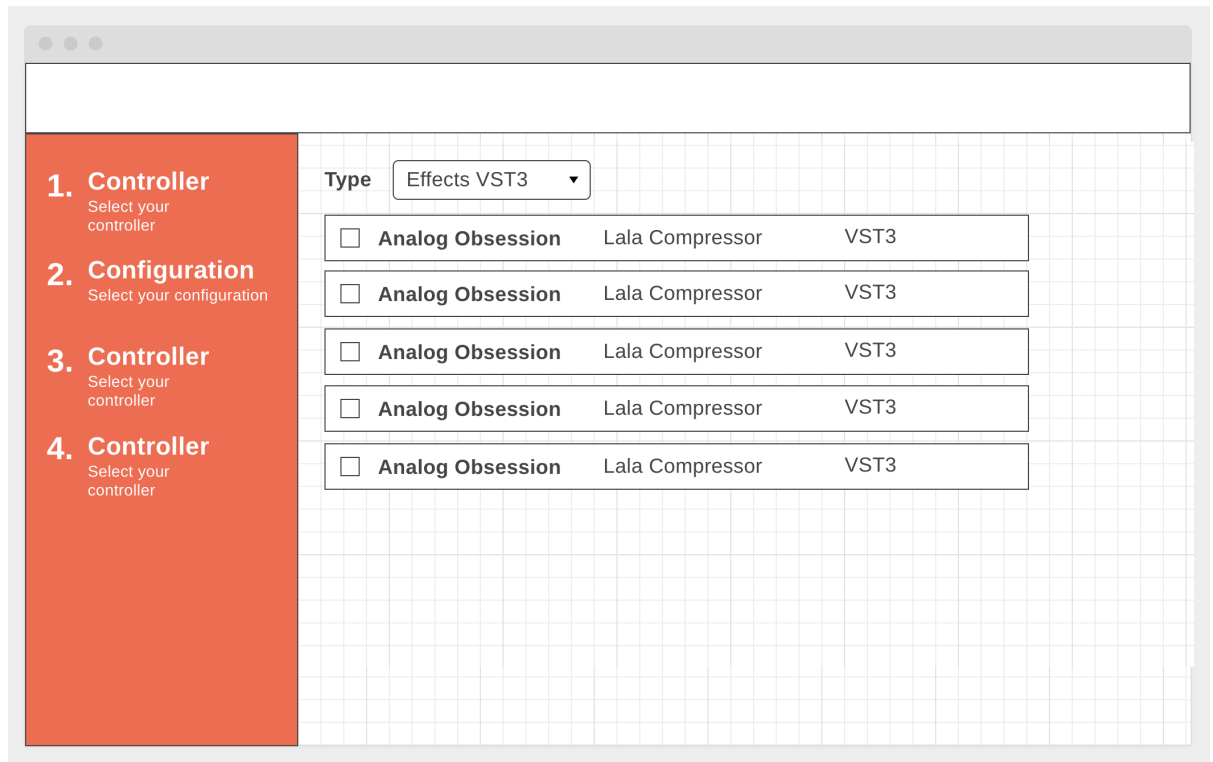

- <https://wireframe.cc/k5ShkL>

-
- Select the configuration. Each configuration has:
 - controller image
 - Controller info
 - Configuration name
 - Configuration description (maybe collapsable, depending on the length of the text)
 - Button for the next step

3. Step 3: Effects and plugins

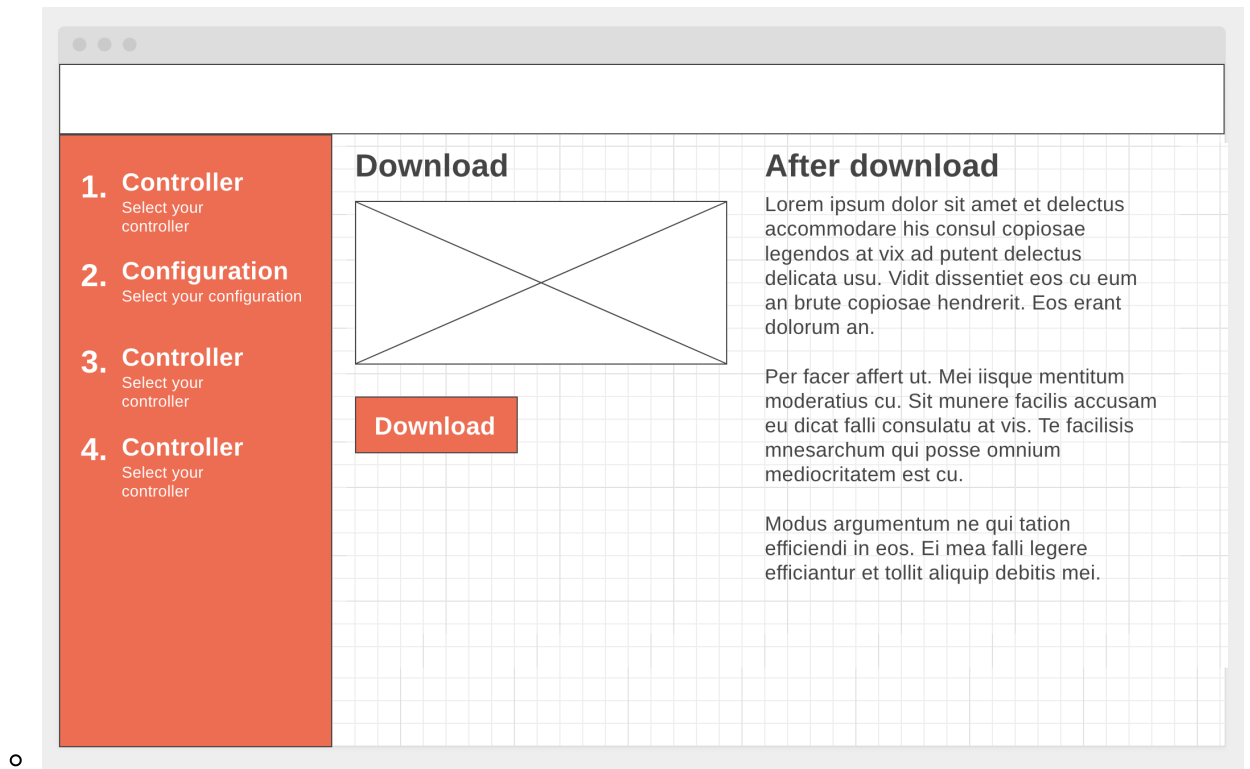

- <https://wireframe.cc/jhsuQ3>

-
- Page has:
 - List with all the option
 - Each item has:
 - plugin name
 - plugin developer
 - plugin type
 - Checkbox for selecting effects, instruments and fx type (vst, au, etc)
 - (Not in the image) List with currently selected items
 - (Not in the image) Button for going to the last step

4. Step 4: Download

- <https://wireframe.cc/mdiUB8>

- Shows the download button and some additional info
